Health Education Research

Peer-reviewed journal

Health Education Research is a bimonthly peer-reviewed academic journal covering health education. It was established in 1986 and is published by Oxford University Press. It is associated with the International Union for Health Promotion and Education. The editor-in-chief is Michael Eriksen. [Wikipedia](#)

				Title
				<u>Health Education Research</u>

This icon means refereed, another term used to describe the peer-review process.

In the **peer-review process**, scholars submit an article to a journal. The journal editor accepts the article and gives it to reviewers. The reviewers, who are **experts**, submit comments and can approve, deny, or require revisions before publication.

Yes! The article "Critical incident technique: an innovative participatory approach to examine and document racial disparities in breast cancer healthcare services" published in the journal *Health Education Research* is peer-reviewed.
